Made by Kronospan

Dependable. Durable. Close to our customers. For us 'being close to you' is not simply a geographical concept but an integral part of our philosophy. Close to you in our way of thinking, in discernment and in understanding your needs. Which means we are always there for you.

35-hectare factory complex
in Lampertswalde (Germany) –
equivalent to 50 football pitches

Lampertswalde, Germany

Facts & figures

- More than 14,000 employees at over 40 manufacturing and distribution sites worldwide – an international outlook with a strong local presence.
- Our products are popular in more than 90 countries around the world.

Over 100 years in the business. More than 40 manufacturing and distribution sites around the world. Satisfied customers in more than 90 countries. But still both feet firmly on the ground.

What began in an Austrian sawmill back in 1897 has since become a global success story. As the world's leading manufacturer of laminate flooring, we have established our reputation in over 90 countries around the world. This is due in no small part to our pursuit of perfection. Because we always want to be better than our competitors. We know exactly what our customers want.

That's why we leave nothing to chance. We make everything ourselves.

Which includes manufacturing the coreboards, making the adhesive and producing the impregnates – vertical integration that gives us total control over the entire manufacturing process. And over every single detail.

You can see the result in our floors. You can even feel it. Because thanks to our innovation, we have succeeded in getting closer and closer to nature. With all the advantages that a laminate floor offers, such as easy maintenance, all-purpose application and

the ingenious click system for easy installation. It couldn't be simpler. And yet none of this would have been possible without our years of experience and extensive research. Because we know what our customers want.

company profile

Over 180 designs. From classic to modern.
So there will always be a floor that is to your taste.

Choose from an incredible variety of designs that are the perfect match for any interior. We currently have more than 180 in our product range. One is bound to be right for you.

We are constantly coming up with new ideas that keep us one step ahead of the latest fashion. To do this, we have a team of dedicated designers who not only track current trends but also anticipate them. They know exactly what will get customers excited. With the whole world of design and comfort to their feet. Superior design for us means sleek appearance coupled with a sensual feel. Whether classical or modern, opulent or puristic, Krono Original®

offers top-quality products to turn even the simplest of rooms into a unique, cosy living space.

But there is more to design than just appearance. Substance also counts. That's why we are constantly developing our products to create even more comfortable surroundings and provide greater comfort under foot. An antibacterial coating that inhibits bacteria growth. A robust surface that resists wear and tear. Better protection against micro-scratches which can be caused by mechanical stress. For lasting enjoyment of your floors. And for a good homely feeling.

The look and the feel of real wood

...plus all the practical surface properties that you expect from a laminate floor. Easy to maintain. Easy to install. Protection against micro-scratches. And an anti-bacterial coating. Modern methods make all of this possible while modern technology enhances the visuals. Krono Original® – the floors of the future.

design and surface textures

The elegant longboards in Hardy Oak (5954) design absorb the history of the property and revitalise it with a modern, homely atmosphere.

Collection Vintage Long
5954 Hardy Oak

xps 5.0 Underlay [1]

Where once there were dark beams, low light and bare floorboards, there is now a welcoming, light-infused studio to relax in. A before-and-after story with the WOW! effect.

What started off as a dark and dingy old attic has been changed beyond recognition. Because thanks to the use of modern extra-long Krono Original® floor panels, the space has undergone a miraculous transformation.

Four simple steps to a new living environment. Here's how:

[1] Underlay with 22 dB (xps 5.0) sound insulation ensures that the sheer delight of the occupants with their new living space does not impinge on the peace and quiet of the people in the room below. It also compensates for irregularities in the subfloor of up to 4 mm. (NB: As the subfloor is made of wood, a vapour barrier should not be used.)

[2] In rooms that exceed eight metres in length, an expansion joint must be created in the middle. Consistent with the colouring, this should be in the form of a 34 mm stainless steel transition profile from the professional parts list (91221). Because of its two-part design consisting of an upper and a lower bar, installation is straightforward and it allows the material to expand and contract naturally. [3] The expansion joint around the fireplace was concealed behind an elegant skirting board which echoes the tone and decor of the floor. Using matching clips (91501), the attachment of the skirting is cleverly concealed.

[4] Now all that remains is to sweep the new floor clean with a fine broom. This is also the right time to apply the first coat of the add2 (90411) floor care product, which is ideal for keeping the floor in top condition. This tried-and-tested cleaning agent has been specially formulated to bring the best out of high-quality Krono Original® floors. It prevents the accumulation of dirt, protects the edges and ensures that the room continues to smell wonderful.

Coldplay

K064 Elemental Oak [Variostep Long]

You'll love our floors. Easy installation, A.B.C Anti Bacterial Coating, Microscratch Protect surface or Authentic Embossed texture are just a few of the benefits of Krono Original® floors.

K047 Mountain Hut Pine [Variostep Classic]

Krono Original® floors are tested, certified and full of character.

Guarantee All Krono Original® laminate floors are put through a series of rigorous tests in order to comply with international quality standards, which is why we grant an extensive residential warranty with every product. You can be rest assured that, whatever range you choose, it's going to be easy to maintain and will give you enjoyment for many years to come.

Stain and imprint resistant Whatever you might spill, be it red wine, oil or coffee, don't panic; it can be easily removed. Krono Original® is also abrasion resilient, robust and proven to be one of the most resistant floorings available, even heavy furniture won't leave an imprint. Please use felt pads for your furniture and ensure that swivel chairs are fitted with soft castors.

Twin Clic The Krono Original® Twin Clic system has been specifically designed to make fitting your laminate flooring as easy and hassle free as possible. The Clic and groove profiles allow individual panels to be joined together quickly with minimal tools or complications.

1clic2go Even in hard to reach places like corners, doors and under radiators, the ingenious "1clic2go" system makes installing Krono Original® floors simpler and faster than ever. The tongue & groove joint along the length of the panel is placed in position from above and fixed flush with the adjoining panel. The panels are then securely interlocked as the patented "1clic2go" beading latches into position with an audible click. Quick. Easy. Secure.

Drop Loc The Krono Original® "Drop Loc" system is a classic locking system with clickable short and long edges. The tongue & groove joint along the length of the panel is placed in position from above. It is an easy installation with minimal tools.

Multi Patent Indemnity Enjoy 100% security with multiple patent protection for all our products! In addition to the Kronoflooring patents, this Multi Patent Indemnity certificate provides extensive protective rights for VÄLINGE INNOVATION AB international and a choice of UNILIN patents worldwide. This involves assured, unrestricted product use of the glue-free click system for the trade.

TÜV Regular independent quality checking via external testing and auditing of the production process as part of the quality assurance system of Kronoflooring.

Anti-slip classes Safety is something we put great emphasis on. Classification in anti-slip classes (R9 and R10) has been achieved through specially developed surface structures, which address the requirements for floor coverings in the workplace and commercial areas where a high risk of slipping is present.

A.B.C. Anti Bacterial Coating We know that keeping your floor as clean as possible will be important to you and that means minimising the risk from germs. We can't see germs, but we all know the problems they can cause if left unchecked. Allergies can be aggravated and illness can result, which is why Krono Original® has introduced A.B.C., Anti Bacterial Coating that does not allow for germs to grow on your flooring. Germs can be present on a floor from many sources such as shoes, spills or animals etc, but Krono Original® A.B.C. Anti Bacterial Coating, works alongside a hygienic cleaning regime, to create peace of mind and a healthy environment.

Guaranteed Anti-Static We've all experienced static at some stage and it's pretty unpleasant. No doubt a 'shock' has caused you some discomfort when touching a door handle or using an electrical appliance in your home, so you'll be pleased to hear that help is at hand. Krono Original® Anti-Static floors provide complete protection against unpleasant shocks. The Anti-Static is built-in and guaranteed for the life of the floor. In addition, these floors do not attract dust and dirt in the conventional way and are therefore incredibly easy to keep clean.

Authentic Embossed The high quality Authentic Embossed structures feature elegant contrasting and a thrilling multi-gloss effect that emphasises the depth of the structure with matt and gloss elements that reflect the light differently. The synchronous pores follow the grain of the decor, meaning they flawlessly mimic the character of natural wood.

Handscraped A breathtakingly elegant and realistic oiled wood finish, with gentle irregular undulations, inspired by traditional Amish craftsmanship. The soft matt surface replicates the hardwood area of solid flooring gently polished over time due to footfall. Meanwhile the deep matt pores are highlighted with glossy accents.

Microscratch Protect This especially durable surface will protect your floors even better against micro-scratches which can occur through heavy use. With Microscratch Protect, your flooring will have the best possible protection against everyday wear and tear.

Eco Friendly All Krono Original® floors are environmentally friendly as standard made of 95% wood sourced from sustainably managed forests. What's more, the entire production chain – from raw materials to the finished product – has been certified and is regularly inspected by independent experts, ensuring peace of mind for you – and protection of our environment.

* Statement on level of emission of volatile substances in indoor air posing a toxic threat during inhaling – on a scale from A+ (very low-emission) to C (high-emission).

Blue Angel Krono Original® has been awarded the Blue Angel eco-label, a German quality seal that provides a guarantee of protection for people and the environment.

A photograph of a modern interior hallway. The floor is covered in dark, wide-plank wood-look flooring with a prominent grain pattern. On the left, there is a long, white, low-profile console table with a metal base. Above it, several framed abstract artworks are displayed. In the background, a white sofa and a dark shelving unit are visible. The hallway is well-lit by large windows on the right and a series of black pendant lights hanging from the ceiling.

Leon Widdison, Designer
Leon Design, Laufen, Germany

Projects in Austria and Germany, for example Munich, Innsbruck, Vienna, Hanover

Trend: barn wood

Leon Widdison: "A current trend in interior decor is recycled wood. In the 19th century, Canadian and American farmers built vast wooden barns. Today, 200 years later, these barns have fallen out of use and are being carefully dismantled. The leftover *barn wood* is now being repurposed for facades, furniture and floors. The distinctiveness of each piece is what makes these new items special; each

one is unique. With the Heritage and Weathered Barnwood designs, this special type of wood has been matchlessly recreated using original found pieces from Pennsylvania, USA. Combined with tactile synchronous pores, the decor's radiant authenticity embodies pure vibrancy and joie de vivre. This gives you the chance to enjoy all the practical benefits of a laminate floor with the aesthetics of reclaimed wood. You'll find a number of different colours in each pack. I'd recommend that you lay out all of the floorboards before installation and sort them to ensure you get a varied, natural-looking floor pattern. You'll be amazed by the results!"

handscraped

The unique charm of our handscraped floor lies in its soft, oiled appearance with gentle, natural irregularities. Inspired by traditional handicrafts, this matt structure with elegant, glossy accents resembles a hand-finished wooden surface.

5948 [Vintage Classic]

A surface that looks hand-finished

"I'm a unique individual, with a unique personality. My home reflects this. I insist on surrounding myself with fabrics and furnishings that reflect my personal taste and my attitude to life. Flooring is crucial. It sets the tone as soon as you enter a room. I chose a Krono Original® floor with handscraped texture. It has style, is easy to lay and is perfectly simple to care for. It ticks all my boxes."

The authentic floorboard look.

The traces of time are precious and beautiful – so it's little wonder that vintage style has long been a dominant trend in homes of sophistication. The Krono Original® Vintage Long flooring is the perfect addition to our Vintage collection – a stylish highlight by itself and when combined with other lengths and widths in the Vintage Narrow and Vintage Classic ranges. Its structured surface looks hand-finished and lends our Vintage flooring an authentic, down-to-earth charm.

Andreas Spiess, Architect
Spiess Interior Design, Dresden, Germany

Projects worldwide, for example New York, Los Angeles, Miami, Chicago, Tokyo, London, Monaco, Brussels, Paris

Give your rooms room!

Andreas Spiess: "Before you start to fit your room with a certain floor, you need to decide what your new space will be used for. Should it have a cool, minimalist design or be warm and cosy? Should the room look as big as possible or be presented with playful details? Besides choosing the relevant design in a warm or cool tone, and a calm or wild pattern, floorboard size and direction are important factors to consider, especially when it comes to the perceived size of a room. Essentially, long floorboards will make a room seem larger and more spacious than short ones. If floorboards are laid parallel to the longest wall, they will make the room

seem longer. If they're installed perpendicular to the wall, the room will seem shorter and wider, which is ideal for long, narrow spaces like corridors and hallways."

Andreas Spiess, Architect
Spiess Interior Design, Dresden, Germany

Projects worldwide, for example New York, Los Angeles, Miami, Chicago, Tokyo, London, Monaco, Brussels, Paris

Why laminate flooring is so perfect

Andreas Spiess: "Laminate floors began to dominate the market in the late 1990s. Before then, no-one had imagined that wood reproductions could ever become so popular. Since then, much has changed in the world of laminate flooring. Thanks to the development of better reproduction and printing technologies, the aesthetics of wood-look floors have improved and even experienced aficionados sometimes struggle to differentiate between real wood and a perfect reproduction. Today, laminate floors are loved and favoured by all generations. Why? Because they're close to nature, but incredibly hard-wearing. Laminate floors go

with virtually everything and are easy to install and maintain. The robust material offers infinite, unique possibilities – you're sure to find the right floor for virtually every space and every need. Features like an anti-bacterial coating, special surface textures, different strengths and abrasion classes for different uses, and countless formats make the flooring highly functional.

It's also very much in the spirit of the times: want to change your style or try something new? Nothing could be quicker or easier than installing a new laminate floor!"

K048 Chateaux Oak
Herringbone, Super Matt

Traditional Herringbone design

authentic embossed

Elegant contrasting and a thrilling multi-gloss effect perfectly recreate top-quality structures with the unique character of natural wood. The tactile synchronous pores follow the grain of the decor. Beauty you can see and feel.

K052 [Vintage Classic]

A synchronous, decorative grain and structure

K052 [Vintage Classic]

"I want to enjoy the natural beauty of real wood without the downsides associated with it. Authentic Embossed by Krono Original® is the perfect solution. Authenticity you can see and feel. Structure you can touch. Synchronous pores unite classy real-wood aesthetics with comfort and practicality for a top-quality laminate floor."

8633 [Super Natural Narrow]

Spectacular look and finish.

With these neat narrow panels, you will capture the beauty of real oak and create a stunning, luxurious interior design concept to suit your home. The Authentic Embossed deep-brushed matt and gloss pores in the surface structure, combined with the bevelled edges on all sides, create a highly attractive parquet style floor. The easy to handle panel size not only looks superb, but also makes fitting quick and easy giving you a perfect result.

Parquet effect with all-round bevel and narrow planks

Andreas Spiess, Architect
Spiess Interior Design, Dresden, Germany

Projects worldwide, for example New York, Los Angeles, Miami, Chicago, Tokyo, London, Monaco, Brussels, Paris

A step closer to nature

Andreas Spiess: "Relaxation is especially important at our house, and natural materials like wood help us to relax and enhance our sense of well-being. Oak has always been a sought-after wood thanks to its durability and resilience – and this still holds true today. Are the Krono Original® narrow plank floorboards real wood floorboards? The difference is hardly recognisable. The new modern oak decors resemble their natural origins more than ever before. There's not a hint of the dark, old-fashioned floors of the 20th century; the appealingly modest, tasteful colours of oak wood are timeless, yet contemporary.

Besides its warm colouring, the decor's grain is sure to impress with its highly desirable wood aesthetic; the synchronous structure

reflects the light differently at different angles, giving it an authentic appeal. Thanks to its special format and interesting bevel optic, the oak decor creates a delightful ambiance. If you love classical products, but still want to be in trend, this product range is the perfect choice."

Textures like real wood

no problem

Krono Original® simply shrugs off the scuffs and spills of modern family life. The authentic look of real stone or wood with the wipe-clean convenience of a laminate. No wonder it's everyone's favourite.

K049 [Impressions]

Durable and easy to clean

5968 [Kronofix Classic]

"A low-maintenance floor is important for us, because our home can be a bit chaotic. Who really likes housework? We like things that make life a little easier – not hours of cleaning. Thanks to our Krono Original® floor, we can relax, as even tough stains like red wine, coffee, fruit stains and nail polish can be removed with ease. Just one wipe and it's clean! What's more, our floor is abrasion-resistant and incredibly durable. Our verdict: it's the perfect choice for everyday living!"

anti bacterial coating – A.B.C.

You naturally want to keep your floor as clean and germ-free as possible. That's why Krono Original® applies an anti bacterial coating to all its flooring to stop germs from growing. Together with regular cleaning, you can enjoy everyday life without worrying about your loved ones' health or well-being.

K038 [Kronofix Classic]

Stops germs from growing

5953 [Vintage Long]

"Cleanliness is important, especially if you've got little ones or pets running around. That's why I chose Krono Original® with an anti bacterial coating. We can't see germs, but we all know the problems they can cause if left unchecked. Allergies can be aggravated and illness can result. A.B.C. does not allow for germs to grow, so I can rest assured my family and I are protected from any nasty surprises."

"I won't compromise my principles. When I buy something, I want to be sure it comes from sustainable sources. So I checked out Krono Original® floorings and found out they use timber from responsibly managed forests. I trust them because, being one of the world's leading manufacturers of laminate flooring, they have a sustainability policy which commits them to reducing their impact on the environment. Which means I can update my home with renewable materials."

Wood is our world. And wood is natural. Consequently, we are at one with nature. In our production and in our philosophy. Because we want to give back to nature what it gives us in quality of life. That's why we are careful to only use wood from sustainably managed forests. PEFC certified. With completely traceable origin. In our manufacturing processes too, the environment is always foremost in our mind. Our objective is to keep waste from production as low as possible – and indeed throughout the entire product life cycle.

We achieve a high recycling rate within the manufacturing process or alternatively use waste material to generate carbon-neutral energy for our production facilities. Our water and energy consumption is constantly monitored. This enables us to quickly identify potential savings and of course implement them in an environmentally friendly way.

This affinity for nature carries over into our products. Our floors are not only environmentally friendly, but also contribute to a healthy living environment. We are committed to using low emission bonding agents that contribute to the overall healthy balance of our products. With certified E1 quality. Quite naturally!

Leon Widdison, Designer
Leon Design, Laufen, Germany

Projects in Austria and Germany, for example Munich, Innsbruck, Vienna, Hanover

Current home interior trend: driftwood products

Leon Widdison: "Driftwood products are especially fashionable at the moment, as artists, architects and designers are using beached driftwood to realise myriad upcycling ideas. The material is very special, since it gains an extraordinary patina through natural aging, weathering and leaching processes. The interesting, aesthetically unique raw material thus provides a foundation for innovative furniture and furnishings that enjoy considerable popularity due to their unique appearance. This trend was the inspiration for the Krono Original® collections Castello and Kronofix, driftwood designs which have

been developed for you in a variety of shades. The inspiration for these special floors was driftwood found in Southern California. The well-preserved, weather-worn oak wood was originally part of an old farm building on the USA's eastern seaboard. If you decide to purchase one of these floors, you'll be sure to create a very special ambiance in your home that demonstrates unique taste and style."

Oasis

K048 Chateaux Oak [Impressions]

A modern living room interior featuring a black leather sofa with a geometric patterned pillow. A large, multi-paned window allows natural light to enter. The floor is covered in a herringbone-patterned wooden plank flooring. A large, light-colored rug is placed in the center of the room. A tall, thin mirror and a vase with dried branches are on a side table. A small wooden table with a basket and a white beanbag chair are visible in the background.

Further laying accessories, cleaning and reparation sets, moldings and profiles you will find in our accessories catalogue „add2”.

Underlays

Depending on the situation in the room, attention must be paid to the correct underlay material when laying the floorings. For this we offer 8 underlayments – here is a small selection.

por 1.5

Very hard-duty high-tech acoustic mat with outstanding properties in every respect / in all areas. Material: highly mineral filled polymers. Due to the extremely low thermal resistance, practically no effect on the time taken for underfloor heating to heat up. Integrated moisture protection with sd > 200 m.

wood 5.0

The insulation board is made from wood fibres and is particularly suitable for use with uneven subfloors. Because of its high wood content, a PE foil must be laid underneath it for moisture protection.

xps 5.0

5 mm thick panels from extruded polystyrol. Excellent insulating properties and high impact sound reduction. Levels uneven patches of up to 4 mm.

accessories

Skirting boards

Choose from a range of skirting in various decors to suit all Krono Original® floors. Our clever fixing system makes it quick and simple to achieve a perfect installation. Please find here a small selection of our skirting.
