# vitality

VITALITY IS  
JUST WHAT  
YOUR HOME  
NEEDS!

The Vitality range has everything you expect of a laminate floor: beautiful designs, different plank sizes, great features such as Aqua Protect, and innovative click systems for ultimate ease of installation. Choose Vitality and enjoy your floor for many years to come.

00375 Pamplona Oak

## WHY YOUR HOME NEEDS SOME VITALITY?

### 1. VIVID DESIGNS

Discover vivid designs with intense colours from light to dark, with matt and realistic structures: natural touch (embossed) and true to nature (embossed in register).

### 2. WEAR RESISTANT

Vitality floors are scratch, stain and UV light resistant. The top layer offers the best possible protection against micro scratches and stains. And you don't need to worry about discolouration.

### 3. WATER RESISTANT

Thanks to the unique Aqua Protect coating technology, your laminate floor is completely water resistant. Vitality is the perfect flooring solution for all areas in your home, including kitchens and bathrooms.

### 4. ANTI-STATIC

Vitality floors receive a permanent anti-static treatment, so static electricity charges cannot accumulate anymore, even in dry climate conditions. Anti-static surfaces are easier to clean as dirt and dust adhere less to the floor.

### 5. RELIABLE CLICK SYSTEMS

With Uniclic and FitXpress, installation is a piece of cake. Each click system ensures a strong and seamless transition from one plank to the next.

### 6. SUSTAINABLE

Vitality floors are made in Belgium, using the best raw materials and sustainable production processes. They carry several quality labels:

#### EU ECOLABEL

UNILIN was the first to receive the European Ecolabel for laminate flooring. The EU Ecolabel is a label of environmental excellence that is awarded to products and services meeting high environmental standards throughout their lifecycle.

#### PEFC

Vitality is friends with the environment. All Vitality laminate floors carry the PEFC label, which is your guarantee of responsible forestry management and conservation: for every tree we chop down, we plant a new one.

#### A+

The results of the VOC emissions are globalised and expressed in a 4-class scale from A+ (very low emissions) to C (high level of emissions). Vitality has successfully passed the test and has obtained an A+ score.

#### CE

CE is a certification mark that indicates conformity with health, safety and environmental protection standards for products sold within the European Economic Area.

# SmartFinish® accessories

A TOTAL  
SOLUTION  
FOR YOUR  
VITALITY  
FLOOR

## > Underlay

A SmartFinish underlay is indispensable before installing a Vitality laminate floor:

- Levelling of subfloor irregularities
- Effective sound reduction: -19 dB
- Support & protection of your floor
- Efficient thermal resistance
- Compatible with underfloor heating

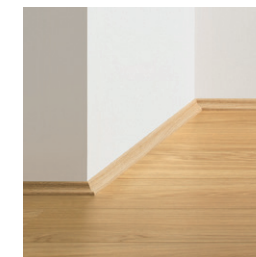

## > Skirtings

**Parquet skirting**  
2400 X 77 X 14 MM

**Skirting**  
2400 X 58 X 12 MM

**Scotia**  
2400 X 17 X 17 MM

- High-quality SmartFinish skirtings
- Moisture resistant by using our SmartFinish Aqua Protect kit
- Designs matching with your floor

## > Profiles

**4-IN-1 PROFILE**  
**Incizo 4-in-1 profile**  
2150 X 48 X 13 MM

**Adapter profile**  
2150 X 48 X 13 MM

**Expansion profile**  
2150 X 40 X 13 MM

**End profile**  
2150 X 41 X 13 MM

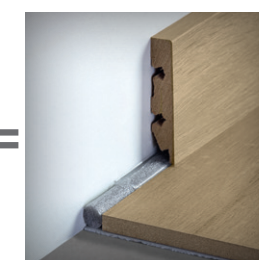

**Transition profile**  
2150 X 41 X 13 MM

- High-quality and multifunctional
- 4 applications in 1 single product
- Wear & scratch resistant
- Moisture resistant by using our SmartFinish Aqua Protect kit
- Designs matching with your floor
- Delivered with SmartFinish cutter

## > Aqua Protect

**Use the SmartFinish Aqua Protect kit for a water resistant finish**

Prevent moisture from seeping below the floor at edges: the SmartFinish Aqua Protect kit ensures a watertight and transparent sealing of connection joints between skirting boards and walls, along walls, radiator pipes and profiles.
